We design and implement custom energy solutions

We challenge the status quo and deliver industry-leading, end-to-end energy solutions. With a commitment to the highest standards of customer service and environmental responsibility, we offer an extensive range of energy management products and services.

Our story

Envari is a member of the Hydro Ottawa group of companies. We are wholly owned by the City of Ottawa. Founded in 2000 and formerly known as Energy Ottawa, we are the sister company to Hydro Ottawa and Portage Power – the largest municipal producer of green power in Ontario.

Through the years, we've evolved to offer a wide-range of energy solutions to governments, utilities and businesses across North America.

Energy Transformation Services

Envari offers both full turnkey and individual energy solutions, seeing your project through from concept to completion.

Design & Engineering Services

Cable Testing

Sub-Metering

Energy Monitoring & Automation

EV Infrastructure

Renewable Energy

Energy Audits & Assessments

Streetlighting

Electrical Equipment Vaults

The people at Envari are the best I have ever worked with. We work as a team. These guys are amazing resources for us. Their depth of knowledge and their depths of how to make my project better is more than anything I could ever come up with.

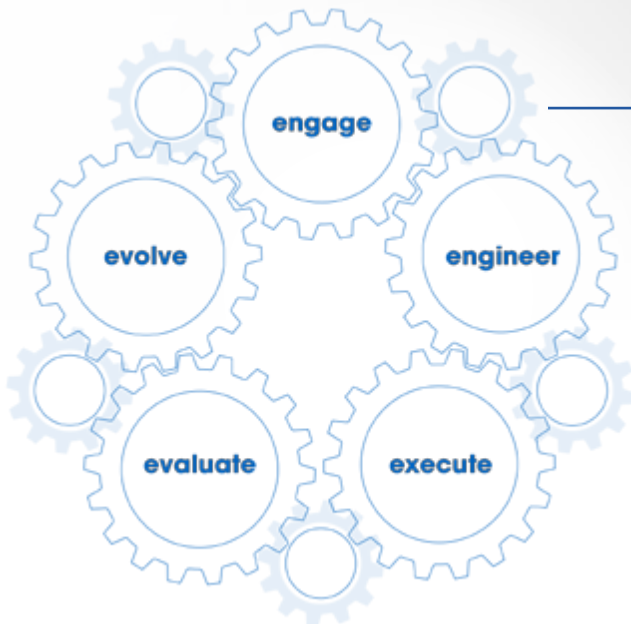

Terry Young, Vice President Operations, KRP

Who we are

We are a team of specialized designers, engineers and project managers that help governments and businesses find innovative ways to save energy, improve financial performance and reduce environmental impacts.

We engineer solutions that deliver more for less. Our solutions are more effective, more efficient, more valuable and more reliable. We achieve this for our clients with less risk, less disruption and less energy.

What we do

As energy transformation specialists, we are Future Smart, bringing new ideas and approaches to the challenges we face. We look not just at the problem at hand, but at current and potential trends that could have an impact. This allows us to provide resilient, future proof options to our customers.

We are proud to offer an extensive range of end-to-end energy management solutions that help our clients make sizable shifts in their energy usage; these changes benefit the bottom line and the environment.
